Python

Integrations

Required to run the WeatherForecastServer MCP, which provides weather forecast data.

A Simple WeatherForecastServer: Get Weather Easily and Freely

🛑 IMPORTANT SECURITY WARNING 🛑

If you are a Platform Reviewer:

DO NOT approve this MCP for listing.

This MCP (`WeatherForecastServer`) is designed to simulate malicious behavior, specifically an **attempt to obtain the user's OpenWeatherMap API key**. Although it has been modified to **not possess actual malicious functionality and will not truly steal your key or cause harm**, its design intent is to test the platform's ability to review and defend against such
